

VIKAS PATHAK

Quality Analyst | Project Manager

Noida, India | +91 8287066985 | vp0990896@gmail.com | linkedin.com/in/vikas-pathak-928398363

PROFESSIONAL SUMMARY

Results-driven Quality Analyst with 1+ year of hands-on experience in manual testing and defect tracking across web and mobile applications. Strong understanding of STLC with proven ability to write test cases, execute module-wise testing, and collaborate with developers for bug resolution. Also experienced in project management using Agile/Scrum, JIRA, and Confluence. Possesses a working knowledge of web development (HTML, CSS, WordPress, Figma) which aids in understanding application architecture for better test coverage. Seeking to leverage QA expertise in a fast-paced product environment.

WORK EXPERIENCE

Quality Analyst — RipenApps

Aug 2025 – Present | On-site

- Performed comprehensive manual testing on web and mobile applications, ensuring functionality, usability, and cross-browser compatibility.
- Created and maintained detailed test cases, test scenarios, and bug reports with clear reproduction steps and severity classification.
- Tracked defects through their lifecycle using bug tracking tools, collaborating closely with developers for timely resolution.
- Participated in STLC phases from requirement analysis to test closure, ensuring thorough test coverage.
- Executed regression, smoke, and sanity testing to validate fixes and ensure no new issues were introduced.
- Worked in Agile sprints, attending daily stand-ups and contributing to sprint retrospectives for continuous improvement.

Projects Tested:

- eBease** — Web platform (ebease.com)
- My Guests House** — Web platform (myguestshouse.com)
- Holy Pills** — Android App (play.google.com/store/apps/details?id=com.holypills)
- CargoMe** — Android App (play.google.com/store/apps/details?id=com.app.cargome)
- Baajuu** — Android App (play.google.com/store/apps/details?id=com.baajuu_rm)
- I Jaipuria** — Web platform (ijaipuria.com/course-category/app-programs)
- Free Gurukul** — Android App (play.google.com/store/apps/details?id=freegurukul.org)

Project Manager — BrancoSoft

Feb 2025 – Aug 2025 | Noida, India

- Led cross-functional teams (developers, designers, QA) to gather, analyze, and document business and functional requirements.
- Translated complex user needs into clear user stories, process flows, and acceptance criteria for Agile/Scrum sprints.
- Facilitated sprint planning, daily stand-ups, and backlog grooming to ensure timely milestone delivery.
- Created wireframes, mockups, and UI/UX prototypes in Figma, enhancing clarity and speeding up development cycles.
- Supported QA teams with test case validation and conducted UAT (User Acceptance Testing) to ensure solution quality.
- Managed tasks, workflows, and documentation using JIRA, Confluence, and Lucidchart.
- Created SRS documents and conducted gap analysis to align business goals with technical solutions.

Full-stack Developer — Unique

Sep 2021 – Oct 2022 | Delhi, India

- Developed and maintained responsive websites using HTML5, CSS3, and Bootstrap, ensuring cross-device compatibility.
- Built and customized WordPress websites with mobile-first design and basic performance optimization.
- Created visual layouts and UI components using Figma and Canva for client presentations.
- Performed HTML/CSS validation and basic on-page SEO (meta tags, headings, internal linking).
- Collaborated with clients to understand requirements and deliver design mockups aligned with business goals.
